'May contain (MC)' on the 'Key Allergen' indicates that 'may contain' has been voluntary provided by the food manufacture on ingredients. This has now been included for reference purposes. However, we still do not manage 'may contain' due to there being no specific legal requirement for food manufacturers to label food with 'may contain', therefore this data could be inaccurate. Manufacturers are only required to provide the 'contain' information on the 14 EU key allergens used as ingredients in the food and drink they provide.
